PENSIONPRO+:
Elevate Pension Fund Management

MISSION

Our mission is to simplify benefits administration for public pension systems by providing essential software; trusted services; and friendly, knowledgeable support – all delivered reliably, swiftly, and affordably.

VISION

Our vision is to empower public pension excellence by providing essential, trusted, and affordable benefits administration software and services to all small and midsized public pension systems in the United States. Through partnership, we will help pension funds turn challenges into solutions and enhance the financial wellness of their membership.

PENSIONPRO+ FUNCTIONALITY

- MEMBER PROFILE

- SINGLE OR MULTI-EMPLOYER CONFIGURABILITY

WHY CHOOSE PENSIONPRO+?

- **Comprehensive Software as a Service (SaaS) Platform:** Access enhancements, new features, and updates seamlessly without costly system overhauls, upgrades or replacements. PTG handles the bug fixes, infrastructure, data storage, backups, security and more.

- **Complete Fund Administration Functionality:** Manage the full member lifecycle -- from active member profiles to retiree payroll and everything in between.

- **Enhanced Team Productivity:** Optimal user experience with quicker navigation, information where you need and third-party integrations to reduce your administration time.

- **Modern Technology Architecture:** Built on Microsoft Azure for reliability, scalability, security and future-proofing. The highly scalable, secure and configurable architecture is made to meet your evolving needs with ease.

- **Efficient Onboarding:** The configurable platform allows for streamlined implementation and onboarding without the need to write custom code to meet your unique setup and requirements.

- **Secure Access Control:** Ensure safety with secure login, promoting trust among members and safeguarding sensitive information.
